Quick-Ship Quick-Install Magnetic Dry-Erase Glass Boards

QuicKISS is a ready-to-ship, writable, magnetic glass safety laminate. Built-in galvanized steel "hems" attach the glass board to the wall via a wall-mounted aluminum track. Boards can be easily hung vertically or horizontally. The speedy "out-of-box" installation saves time and labor costs – only requires hand tools and proper wall-mounting screws based on your substrate (Sheetrock, concrete, brick, etc.). Designed and produced in the USA.

Bendheim's brilliant ultra-white glass elevates interiors with its crystalline body and surface. The non-porous, naturally hygienic, non-ghosting glass makes clean up extra easy. Even permanent markers leave no trace after wiping with a window cleaner.
