

MagLite™ Magnetic Dry-Erase Glass Marker Board – Any Custom Color

Application:

Interior

Composition:

Low-iron glass; steel

Installation:

Can be glued directly to the wall using neutral cure silicones in conjunction with mechanical fasteners to support the weight of the glass, or can be supplied with our proprietary Z-KISS attachment method.

Approx Dimensions:

Cut-to-size; max. size = 60" x 120" (1.5 m x 3 m); thickness = 1/4" (6 mm). Larger sizes available by special request.

Approx Weight:

4 lb/ft² (19.5 kg/m²)

Safety Options:

Tempered_laminated

Maintenance:

Bendheim glass marker boards are easy to maintain using standard dry-erase markers and erasers. Occasionally, we suggest cleaning the glass surface with warm water and a lint free cloth (terry cloth) to keep the boards looking outstanding. Conventional non-abrasive glass cleaners may also be used.

Testing:

Our tempered-laminated safety glass boards meet the requirements for ANSI Z97.1 & the Consumer Product Safety Commission CPSC 16FR, Part 1201 – Safety Standard for Architectural Glazing Materials; surpass the requirements of the 400 pound-force (lbf) impact test.

Options & Customizations:

- Unlimited custom color options
- Projectable option
